

The UAE and US: United in Prosperity

“ This burgeoning economic relationship is a testament to the strong alliance between the two countries.

UAE Ambassador Yousef Al Otaiba

“ It goes without saying that [the UAE is] really one of our most important, closest partners today.

US Ambassador Barbara Leaf

UAE-US TRADE RELATIONSHIP IS STRONG AND DYNAMIC

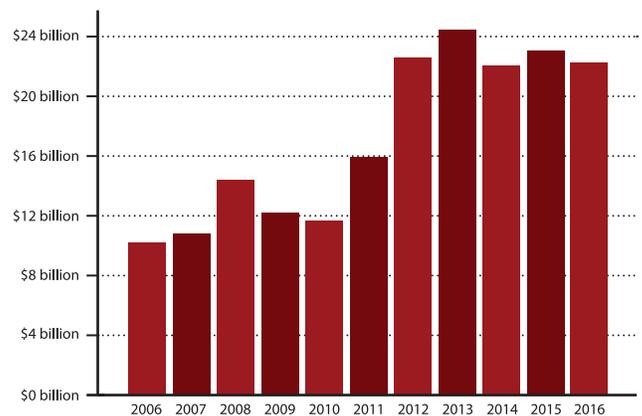

With one of the most open and innovative economies in the world, the United Arab Emirates (UAE) is a dependable and significant economic partner of the United States (US). Like the US, the UAE sees the power and benefits of open markets and free trade.

The US has one of its fastest-growing trade relationships with the UAE. Total bilateral trade grew from approximately \$5.22 billion in 2004 to \$25.7 billion in 2016, based on recent data.

Over the past 10 years (2006-2016), US exports to the UAE grew by 118%, surpassing \$22 billion in 2016. The UAE had the largest export market for US goods and services in the Middle East and North Africa in 2016 – the eighth straight year the UAE has held this distinction.

This growth reflects the success of the increasingly diversified UAE economy, with non-oil sectors accounting for 70% of the UAE's GDP.

US EXPORTS TO THE UAE GREW BY 118% OVER PAST DECADE

KEY SECTORS DRIVE GROWTH

- **Aircraft, spacecraft and related parts** were the top category of US exports (\$6.5 billion), accounting for nearly 30% of total exports in 2016. This reflects the UAE's position as a global commercial aviation hub. In late 2013, the UAE airlines (Emirates, Etihad and flyDubai) announced the largest commercial aircraft order in history. When combined, UAE airlines will buy 300+ new Boeing aircraft valued at more than \$120 billion, including General Electric engines and maintenance services.
- Other top categories of US exports in 2016 included: **electric machinery and sound/TV equipment** (\$2.7 billion); **vehicles** (\$2.5 billion); **nuclear reactors** (\$2.5 billion); and **natural pearls and precious metals** (\$1.9 billion).
- **Infrastructure development projects across the UAE are driving growth and supporting billions in US exports.** Projects include the development of a new railway; network support for the UAE civilian nuclear energy program; the construction of new airports in Abu Dhabi and Dubai; and the expansion of commercial seaports across the UAE.
- **Tourism is another key sector driving the UAE's economic expansion.** In 2016, UAE airports handled more than 120 million passengers. Dubai International is the world's largest airport for international passenger traffic.
- **New infrastructure development projects** – co-managed by CH2M Hill – will prepare Dubai to host the largest World Expo and also expand the UAE's tourism capacity. Dubai Expo 2020 is expected to attract 25 million visitors to explore hundreds of exhibitions from around the world.

KEY FACTS

- ✓ The top five exporting states are: Washington, Texas, New York, California, and Florida.
- ✓ The UAE has a trading relationship with all 50 American states as well as Puerto Rico, the Virgin Islands, and Washington, DC.
- ✓ The US has a \$19 billion trade surplus with the UAE, the US' third largest trade surplus globally.
- ✓ The UAE is one of the largest Foreign Military Sales customers of the US, purchasing more than \$20 billion in US defense hardware and services over the past decade, including one of the world's largest non-US F-16 fleets.
- ✓ More than 1,500 US firms have a presence in the UAE. Major global companies – such as Lockheed Martin, General Electric, Boeing, Northrop Grumman, FedEx and Halliburton – base their regional headquarters in Abu Dhabi or Dubai.
- ✓ UAE investments in the US support hundreds of thousands of American jobs and provide liquidity to capital markets that spur innovation and advancements across several sectors, such as a \$6 billion investment in GlobalFoundries, the second-largest semiconductor chip maker in the world.
